PROFESSIONAL SUMMARY

A result driven individual with thirst for knowledge. I am passionate about how technology works and my point of interest is web technology. I have one and half year of experience using JavaScript and the technology built around it like React, Webpack, Enzyme, Redux, and Flux. I also have successfully used these technologies in building some real-world projects which can be found in my GitHub repositories and my portfolio. I love to convert designs into quality and well optimized code. I also like to collaborate with others to solve problems and work together as a team.
